

	Story	Tasks	When	Estimated time (h)	Hours spent	Done?
Week 1	Outside constraint week 1: A release has to be done at wok, so I wont have time to finish early and work for HCI course. I will watch some lectures during the week and start assignment work on friday					
	Explore and decide	Experiment with prototype software, and decide if my prototype is doable with them. Then plan next steps.	26.10.2012	2	3	25. and 26.10
	HTML site which looks like prototype (single site)	Use template (HTML5 or twitter bootstrap) and add UI elemnts	27.10.2012	1	2	27.10.
		Basic styling to get layout like prototype	27.10.2012	3	2	28.10.
	Add new entries	Implement basic functionalty for adding new entries, with some relative date recognition	28.10.2012	4	5	28.10.
	Publish	Upload Page to staticloud	28.10.2012	1	0,5	28.10.
Week 2	Outside constraint week 2: I have three free days, so I will have some more time to work on the prototype under the week					
	Delete Entry	Add action to delete entry and implement deletion	29.10.2012	2		
	Edit entry	Add action to edit entry and implement edit functionality	31.10.2012	2		
	Add Highlighting	Highlight entries for current day	31.10.2012	1		
	Time and Date pattern recognition	Recognize time information in the input. Recognize absolute dates in the input	02.11.2012	3		
	Logout	Popup for logout	02.11.2012	1		
	Buffer for unseen work and publishing		04.11.2012	2		
Probably out of scope due to time constraints	Handling entries in the past					
	Prototyping "Invite" and "Remember" functionality					
	Assure that entry has some text					
	Provide help for entries without date information					
Definitely out of scope	Storing entries					
	Handling for many possible variants of defining dates like "monday in three weeks" or "in week 32"					
	Support for re-occurring dates
